FAO: Tina Dulieu, Coaching Dynamics
Reference: Growth Accelerator

Dear Tina,

Having known you for over two years, Nuno and I had no hesitation in engaging the services of Coaching Dynamics when the time was right for us to join the Growth Accelerator program. Our confidence had already been more than reinforced after meeting several of your previous clients and hearing how you had helped them.

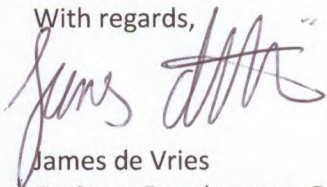

The program itself was certainly an eye opener, and I learned a great deal about myself and our company. We are now more motivated and focused because we have a clear picture of what the future can really hold for us.

You were so helpful and enthusiastic about the whole experience, everything was explained so well and you were supportive in every aspect of the program.

I would recommend Coaching Dynamics services to any companies who are serious about their future, Tina's wealth of experience and knowledge are an invaluable asset.

We will certainly be working with Coaching Dynamics again.

With regards,
